Those persons, with the exception of Mary Swartz, as far as it could be learned, did not wish to be incorporate members, and so signed the petition. Mr. Kunen stated, "I think that the manner in which some of the signatures were obtained, that perhaps the matter should have been explained more fully when they were asked to sign Agreement of Association". MINUTES OF MEETING
BOARD OF SELECTMEN

March 9, 1960

Members assembled at 7:30 P.M.

Present: Chairman, Henry B. Adams, Selectmen, Philip W. Burke and Arthur J. St. Maurice.

Since there was no Warrant this week, due to illness of Town Treasurer, an appointment was set up, at this time, for Chief Mattioli, who handed in his bi-weekly report from February 21 through March 5, 1960. Report accepted.

Discussion ensued relative to the Board's attendance, last night, at the pre-town meeting, which was held in the Fayville Village Hall, under the auspices of the Southborough Village Society.

7:50 P.M. Then appeared Mr. Leo J. Pessini, Superintendent of Highways, Mr. Pessini was instructed by the Board to clear snow around Town Hall, preparatory to the Annual Town Meeting, March 14th. Chevrolet dump truck widely discussed. Mr. Pessini contends that the condition of said truck was caused by the driver of same. Mr. Pessini told the Board that said truck was being run in "low speed", that he (Pessini) saw the driver (Cunningham) driving said truck in low speed "at the school yard", that "with him" (Mr. Pessini referred to Mr. Cunningham) "he wants this job (meaning Superintendent's) and has wanted it for a year. Mr. Pessini stated that he has told the men before, to check the trucks if they knew there was something wrong. Mr. Pessini also stated that when Mr. Cunningham worked for former Highway Superintendents he gave them a "hard time". The motor of said truck, as a result of driving same in low speed on level ground burned out. Mr. Pessini stated that when said truck was towed back to the garage "it was still smoking", "it was so hot". Mr. Pessini told the Board that Mr. Cunningham was continually "griping" concerning wages as paid the operator of the tractor. Selectman Burke stated that he felt that a man should not be held 100% responsible for the total destruction of equipment. Mr. Pessini stated that Mr. Cunningham had it "wide open" in low gear "because he wants a new truck". Mr. Pessini stated "Booth has applied to the Water Department". Mr. Pessini stated that he told Mr. Cunningham to get another job that "Friday night he was all done."

Breakdowns of the various Highway Department Equipment, during the recent snow storm of March 3rd and 4th further discussed. UNANIMOUSLY VOTED: that a COMPETENT MECHANIC be employed to give monthly reports on the general condition of all Highway equipment from now on. The breakdown of the transmission on the F.W. D., discussed. It was also agreed by the Board that when a driver of a truck notices anything wrong with his truck, he make a report of same to his Superintendent. Mr. Pessini reported that recent snow storm cost Town about Two Thousand (\$2000.00) Dollars, counting salt, etc. It was brought out at this meeting that the Town of Southborough did not hire Marlboro Equipment, but that after the City of Marlboro had released those men who were working for it, Mr. Granger, Highway Superintendent for said City notified these men that if they wished to go to Southborough, that he understood our Town was in need of assistance, since our equipment had broken down.

VOTED UNANIMOUSLY: that those men who helped in the said recent snow storm be notified of the appreciation of the Board and Superintendent of Streets, for their fine assistance.

8:35 P.M. Then appeared Mr. Clifton Cunningham, a member of the Highway Department. Also appeared at this time Town Counsel, Alfred W. Howes. Mr. Cunningham asked if the other members of the Highway Department were going to

be present. Selectman Burke stated that the Superintendent of Streets would call them in if they were needed. Mr. Pessini accused Mr. Cunningham of running the motor of the Chevrolet dump truck, in low gear and racing said motor, so as to cause same to be burned out, and that as far as he (Superintendent Pessini) was concerned, Mr. Cunningham was "all through", this Friday night, as a member of the Highway Department. Said burned out motor occurred on the night of the snow storm of March 3rd, 1960. Chairman Adams stated, that as far as he was concerned Mr. Pessini was the Superintendent and knew what he was doing. It was the unanimous opinion of the Board that as Superintendent of Highways, Mr. Leo Pessini is in control of the Highway Department.

9:00 P.M. Then appeared Mrs. Katherine S. Wood, Realtor, of Framingham, for the purpose of asking permission to set up a Real Estate Office, in two rooms, on the premises located at the corner of Boston and White Bagley Roads, now or formerly of Justin J. McCarthy. Mrs. Wood explained that she is interested in purchasing said McCarthy home, and that two persons would be employed, also, that she wishes to have a parking lot at said premises. Town Counsel Howes as well as Mrs. Wood, mentioned a decision had been handed down by the Courts relative to such a case, that same appeared in the papers. It was agreed, by the Board, that the Town Counsel would officially investigate and let her know their decision. Mrs. Wood had explained also that the appearance of the said premises would "not be changed" that two doors, however, would be installed.

Various cases now pending, relative to sub-divisions, discussed. UNANIMOUSLY VOTED: that Board is to use the services of the Town Counsel until official permission is given by the Selectmen, unless in the case of an emergency.

Selectman Burke reported to the Board that the Planning Board had received summons to appear in Court, relative to the Charles Pieper Case. It was brought out that the Planning Board disapproved definitive plans of Mr. Pieper on the basis dead-ending a street five (500) feet from another street was in violation of the Rules and Regulations of the Planning Board. Mr. Howes told the Board that he didn't think the Planning Board could stop a person at 500 feet thereby leaving the rest of the land unusable. It was Mr. Howes feeling that the actions of the Planning Board were not justifiable.

9:20 P.M. Then appeared Calvin Mauro, Allison Booth, George Boothby, Clifton Cunningham and Highway Superintendent, Leo J. Pessini. Condition of Chevrolet truck again discussed. Also discussed, was the disension in the Highway Department, Board told all present that it was agreed that a monthly check-up by a mechanic was to be given all pieces of equipment. Mr. Pessini was asked by Selectman St. Maurice, how was the condition of the Town equipment prior to the snow storm. Mr. Pessini answered all equipment was in working condition, when men started to plow roads that night.

Disension in the department was realized at this meeting as a result of the men not receiving wages in comparison to others who are doing the same type of work. Selectman Burke stated "Department (Highway) as a whole, is underpaid. The Board informed the men that it would do whatever possible to help straighten out this matter but that it takes time.

Mr. Pessini reiterated that Mr. Cunningham was causing said disension in his department, that there were arguments relative to certain of the Highways members receiving certain wages, when he (Cunningham) felt he should be receiving the same said wages.

10:00 P.M. Members of the Planning Board appeared at this time. Also appeared, Mr. Asadour Topalian. A very lengthy discussion ensued relative to the Charles Pieper case, which is presently pending. Some time ago, the

members of the Planning Board had received summonses to appear in Court concerning said Pieper case. The Planning Board is not in favor of permitting a turnaround on a part of this sub-division, on the basis of it's not "complying and conflicts with best interests of the Town--it isn't safe as a matter of Public Health". Foregoing statement made by Mr. Sumner Elton, of the Planning Board. It was brought by the Planning Board, at this meeting that as far as Mr. Pieper is concerned he is not contemplating any more than what was shown on Plan as shown Board of Selectmen tonight. It was also brought out that this case was going to be put on "April List" for trial. Mr. Howes Town Counsel, feels that the Town hasn't too good a chance to win this case, should it go to the Supreme Court. Mr. Howes did state that he had never got a copy of the "Pleading" and "Bill of Complaint" and wants to read same. Mr. Howes later told the Board that he felt that the Planning Board doesn't have the right to stop anyone from building on dead-end streets but will investigate further. Board VOTED UNANIMOUSLY not to have, if possible case brought to Court.

VOTED: that Zoning Permit be granted to Mrs. Elizabeth Clark, 80 Edgebrook Road, Framingham, to erect one-family dwelling on West side of Pine Hill Road.

Appointment of Mr. Ernest E. Weldon, as a Special Police Officer for Beebe Estate (Eastlieght Farms) discussed. Mr. Weldon, in previous years, had been receiving his appointment in October. The Board felt, however, said appointment should be made to conform with other appointments and VOTED UNANIMOUSLY: said Weldon's appointment be made in March instead of October. He is being so notified.

VOTED: that the Board of Assessors have installed a full-time telephone and remit bills as such.

Chairman Burke then received a 'phone call from Mrs. Herbert Holms, requesting permission to stay open on Sundays.

Bills approved for payment--Treasury Warrant #14-- Amount, \$3,673.30.

VOTED: to accept with regret, the resignation of Charles W. Sawin, as a member of the Industrial Development Commission.

8:05 P.M. Then appeared Mr. Loring Saltus of Saltus Press, Worcester. A lengthy discussion, relative to the possibility of having a newspaper for Southboro, for the Town's people, to use said paper for Legal advertising as well as having someone to give in news reports, ensued. Mr. Saltus stated, "we won't give 'free' circulation." Possibility of charging two or three cents a copy mentioned. Mr. Burke pointed out that the Board feels, where legal advertising is concerned, paper should be an established one, particularly whenever contracts must be put out on bid. Hearings, as being held by the various Boards, within the Town, was considered by the Board, as possibly being of interest to the Town's citizens. Mr. Saltus was told of the three papers, Viz: Marlboro Enterprise, Worcester Telegram and Gazette and Framingham News, which adequately give news coverage of Southborough. The Board told Mr. Saltus that the possibilities, as discussed tonight, were problems he (Saltus) would have to solve.

8:35 P.M. Then appeared both State Engineers, William Brown and Schuyler Benedict. Also appeared Highway Superintendent, Leo J. Pessini. The Board members told both the above-mentioned State Engineers, that they would like very much to have their services concerning the Town's Highway problems, checking of brooks, checking on new streets being developed within the Town, etc. Chairman Burke brought up the proposed relocation of John Street, and showed map of same, as drawn up by Haley and Ward. Both men agreed with the Board, that on their own time, they would help the Town of Southborough with its various problems drainage and as above-mentioned. It was also agreed between the State Engineers, and the Selectmen, that the work would be done in the summer. Various Easements discussed. Town Counsel to obtain same. State Engineers to give a report of their recommendations relative to John Street, in about three weeks.

8:50 P.M. Town Counsel, Alfred W. Howes, appeared, and the Board asked Mr. Howes to obtain various Easements from those people who live on Prentiss Street, west side of Cordaville Road, etc. As far as receiving Easements from the Boston & Albany Railroad is concerned, Board is to await recommendations from State Engineers.

Selectman St. Maurice asked the State Engineers if they thought that "Type I is any detriment on a steep hill". Mr. Brown stated, "I think they are wrong on that one--Type I has more traction." (At the Annual Town Meeting an amendment was made by Mr. James Daughan that said John Street be done with "gravel and asphalt emulsion") Both State Engineers are in favor of installing Type I Road on relocation of John Street. VOTED: that an Article be placed in the Warrant for the Special Town Meeting, which is coming up either in April or in May, to rescind Vote as taken at Adjourned Annual Town Meeting, March 15th, under Article 57.

Board again signed request concerning type of work to be done with the balance of Chapter 718 funds. This form had been sent on December 3, 1959, and signed by the former Chairman, Henry B. Adams, which apparently became lost in the mail.

9:30 P.M. Then appeared, Fire Chief, John W. Boland. Selectman St. Maurice explained to Mr. Boland that his appointment had been held up because of the question concerning the "inspection of Burners." Chairman Burke brought up the possibility, providing it was legal to do so, of having a "Deputy Fire Inspector." Selectman St. Maurice asked Chief Boland if he had given any permits (burner) this year. Mr. Boland stated that if he had, he only gave a few. Selectman St. Maurice asked Chief Boland if he was under obligation to give permits and he answered "Yes." Mr. Boland explained that the owner of a house is not obliged to request a permit for his burner, but that the one who installs it is responsible, and should request same of the Fire Chief, that the one who installs also has to have a certificate from the State Department of Public Safety, that the only way to make a person who installs burners, request a Permit, is to "take them into court." Mr. Boland again brought up matter relative to a "Permanent Fire Chief in the fire station", "let him stay from 8:00 A.M. to 10:00 A.M. in the morning," and "get their permit and lay down the fee for it." Chief Boland explained that there was a difference between an oil permit and a gas permit. Mr. Howes, Town Counsel stated it was his belief that there are some limits to rules and regulations, that the Fire Chief can make. Selectman Sawin asked if there was any fine. Mr. Boland explained only way would be to catch person installing the burner. Chief Boland again stated that he wanted the Job Classification By-Law changed to read "Permanent Chief" instead of "Call Chief." Chairman Burke stated the Personnel Board would have to be notified. Ninety (\$90.00) dollars a week for such Permanent Fire Chief discussed. Mr. Boland stated "I wouldn't consider it at ninety (\$90.00) dollars a week".

Burning of barn, as owned by Mrs. Ethel Wheeler, Prentiss Street, discussed. VOTED: that said barn be knocked down by Highway Department. (Mr. Pessini, Highway Superintendent, was here at this time) Mr. Boland stated that as soon as Highway Department knocked said barn down, he would have his men raze same. The cleaning up in back of the fire station, discussed. Chief Boland stated he would have same cleaned up. Sprinkler System at Peters High School discussed. Chairman Burke reported that neither the High School (Peters) nor the Annex had "sprinkler service", that the Selectmen have now taken care of same. (The Selectmen were not aware of this condition until a few days prior to this meeting). VOTED: that the Selectmen meet with Mr. Paul J. Redmon, and an Insurance Inspector, at said High School this coming Saturday Morning, at 11:00 A.M. to investigate further this matter, Motion then made by Selectman, Charles W. Sawin, seconded by Chairman Burke and made unanimous by Selectman St. Maurice, that John W. Boland be appointed, for the term of one (1) year as Fire Chief and Fire Warden.

10:00 P.M. Then appeared Mr. Anthony Rosso. Mr. Rosso was interested in obtaining employment "to supplement my pension." Mr. Rosso was told by the Board he would be kept in mind. (Mr. Rosso had mentioned the possibility of having the job as Dump caretaker should it become available.)

10:15 P.M. Then appeared Mr. Harold Collins, of Luco Construction Co., making a "progress Report" relative to new plan of Lot #1, on Oak Hill Road, showing on same, addition. He is to obtain a Variance from the Board of Appeals.

Board then discussed appointment of Town Counsel. It was brought out that it had come to the attention of some of the Board members that Mr. Howes had a "duo" interest in that he (Howes) had been acting both as Town Counsel and Counsel for Clients in one and the same cases. Mr. Howes emphatically denied this to be so, stating that at no time did he so act, that as an attorney he was perfectly aware that such a thing could not be, that if he had been asked questions by various officials of the Town he has never refused to give advice, that he has answered questions of "hundreds" of people and given advice, but did not act in the capacity of their attorney.

Sub-Division of Mr. Asadour Topalian discussed. Mr. Howes stated that Mr. Topalian asked if an agreement could be written up between him and the Town. Mr. Howes stated that "Sunny" Elton asked him "last Wednesday or whenever the Planning Board met" to prepare a covenant between the Town and Mr. Topalian which he (Howes) "thought would be satisfactory to cover the Topalian situation". Mr. Howes stated that there had been some changes made Wednesday night "when they had the hearing" and that he (Howes) now has the covenant as proposed by Mr. Elton. It was brought out at this meeting that Mr. Topalian had come up to Planning Board "ten or twelve times" with his preliminary sub-division plan. Mr. Howes made it quite clear that Mr. Elton requested that the covenant be drawn up and not Mr. Topalian. Performance bonds also widely discussed. Chairman Burke then made a motion that Alred W. Howes be appointed as Town Counsel--seconded by Selectman Sawin and made unanimous by Selectman, St. Maurice.

Shipper case then reviewed for Selectman Sawin's benefit. Mr. Shipper is seeking damages to his land on Fisher Road when said Road was relocated in 1957. Mr Sawin was told that the Town is willing to pay Mr. Shipper 3cents a foot for land damages, if necessary. Mr. Howes stated that he strongly feels at the present time, Mr. Shipper did not bring suit against the Town "within six (6)-months" as so stated in the Law.

Woodward Memorial School. Chairman Harold Bauld stated that the eight (8) rooms did include "library" and "guidance" office. The Board questions the interpretation of "classroom" and feels that a "library" is not a classroom. Chairman Burke told all present that the Board is doubtful if the School Building Assistance Commission will approve a library as being a "classroom" and is therefore hesitant in signing the bonds for said "additional classrooms".

7:55 P.M. Town Counsel, Alfred W. Howes, appeared at this time.

It was further reviewed by Mr. Bauld just what the School Study Committee did to inform the Townspeople, through a letter, concerning the spending of the \$187,000.00. Mr. Bauld stated that the \$187,000, was for the building of six classrooms plus a library and guidance office. (It was brought out here that Article 33 of the Annual Town Meeting called for "eight additional CLASSROOMS". It was also brought out that, if the State approved the eight (8) additional classrooms, the Town would be given aid in the amount of \$74,000.00. It was also brought out that the School Study Committee was requested to include in the plans a "library" and "guidance" office. (Mr. Bauld told all present that the "library" was the "exact same size" as the rest of the classrooms. Chairman Burke asked of Chairman Bauld if the School Building Assistance Commission had been asked if the Town turned down the "library" and "guidance" office, would it, School Building Assistance Commission, disqualify the Town? Mr. Bauld answered "NO." Chairman Burke asked Chairman Bauld, "do you think you can ask the School Building Assistance Commission that, if we did not have the library and guidance rooms, would we lose? Mr. Bauld answered, "they did not say they would approve it without it". Selectman St. Maurice asked Mr. Bauld if when his Committee came to the Townspeople did they have in back of their minds Guidance and Library? "No" answered Mr. Bauld.

Mr. Coleman stated that the School Committee maintains said skating rink, that the Choate Trust Fund has accrued a small income from which equipment had been purchased. Mr. Coleman was asked if his Committee had used any of said Funds to maintain said rink and answered "No". Mrs. Geary reported that the Parent, Teachers Association wants the rink, that it is "not going to be done away with".

A lengthy discussion then ensued on the "pros" and "cons" of using Peters' High School Building for classrooms. The School Study Committee is in favor of razing same.

Then appeared Paul J. Redmond Town's Insurance Advisor, and Mr. Flynn, of the Traveler's Insurance Co. (The School Committee also remained). Sprinkler System in the Peters' High School Building discussed. (The \$1000.00 asked in motion under Article III of the Adjourned Town Meeting of August 16, 1960, and which was held on September 27, 1960, for heating said School, this Winter, was denied). Mr. Redmond brought out the fact that, at the present time, said School has insurance on it at \$95,000.00, as an "Idle" School Building. According to Mr. Redmond, said School has been insured \$155,800.00. Possibility of asking the Advisory Committee for a transfer to heat said School, considered.

8:00 P.M. Then appeared Alfred Felicetti, Manager, Deerfoot Farms Co. (Hygrade Foods) and a discussion ensued relative to the parking of cars by the employees of said Deerfoot Farms Co., in such a manner as to cause the blocking of traffic on Newton Street, causing in some cases, passage of only one car instead of two, in front of said Deerfoot Plant.

had several questions which he was going to ask, with the permission of his other Board Members, of the Water Commissioners). Selectman Banks stated that he would like to see said questions, first, before they are asked. Selectman Sawin also agreed to statement as made by Selectman Banks. After both afore-mentioned Selectmen read questions as prepared by Selectman St. Maurice, it was

VOTED: by a two-thirds majority, that said questions were not to be asked. Superintendent Boland stated that "before we go any further, we want a copy of these Minutes, if the Board so Agrees".

With reference to the opening of Public Ways, the Water Commissioners and Superintendent Boland told the Selectmen that whenever a street is to be dug up or opened, that the Water Superintendent first notified the Highway Superintendent of same, that if the Highway Superintendent was opposed to said streets being opened at the time, the Water Department postponed same. Commissioner Baker stated that a Permit to Open the street isn't required. The Commissioners made it quite clear that they would not go along with the Permit to Open, Use, Occupy or Obstruct a Way as recently as this past December, 1960, as set up by the Board of Selectmen. At about this point, Selectman Sawin made a motion to adjourn this meeting. Town By-Laws relative to the digging up of certain streets brought up by Chairman St. Maurice. Drainage conditions on the property of Mr. Dewey (who was present) discussed. After a lengthy discussion, it was felt by the Board that this condition would have to be remedied by the State since Southville Road is maintained by the State. Mr. Dewey told the Board that he had already been to the State about same. The Board suggested that he contact the Town's Department of Health. Mr. Pessini stated that when Developers came in, they changed the natural flow of the water causing same to flow onto the land of Dewey.

MEMO: Resignation of James H. Cookman, as a member of the Committee concerning Route 495, accepted, May 3, 1961.

MINUTES OF MEETING
BOARD OF SELECTMEN

May 10, 1961

Members assembled at 7:30 P.M.

Present: Chairman, Arthur J. St. Maurice, Selectmen Charles W. Sawin and Donald R. Banks, also Chief of Police, Francis J. Mattioli. (Mr. Ralph Gray, Chairman of the Personnel Board appeared at this time).

A discussion followed relative to the stopping by the Chief of Police, of the Brinks Sign Company from erecting a sign on property as owned by Mr. Bruneck on Turnpike Road, since application for said erection had been disapproved by the Board of Selectmen on July 29, 1959, being application #41650. Brought out at this meeting was the fact that the Selectmen did not request a hearing after disapproving of same and therefore no action by the Board could be made to stop said erection.

The Town Hall Custodian came into the office for a few minutes and reported that part of the ceiling had fallen under staircase of landing going up to balcony, on the East side of Town Hall.

7:55 P.M. Edward Phair, of the Personnel Board then appeared. (Mr. Harold A. Bauld, Chairman of School Study Committee, called, by telephone at this time reporting that between one and two thousand yards of gravel in addition to gravel for the skating rink is to be removed from that section of land where the new addition to the school (A.S. Woodward Elementary) is to be erected.

8:00 P.M. At exactly this time, Chairman, Arthur J. St. Maurice opened SEALED BIDS as received from the following; and read aloud the same.

Wachusett Bituminous Products Company	(see bid for price)
Trimount Bituminous Products Company	" " " "
N.E. Asphalt & Tar Company	" " " "
Independent Coal Tar Company	" " " "

Present at the opening of the above-mentioned Bids were: Mr. Frank O'Donnell of Trimount Bituminous Products Company and a gentleman representing Wachusett Bituminous Products Company. After all Bids had been read aloud by Chairman St. Maurice, the gentleman from Wachusett Bituminous Products Company stated that a "typographical" error had been made in his quotation, that it should read ".1390" instead of ".48" per gallon. Selectman Sawin tol representative from Wachusett Company that, since his bid was first one opened, he should have mentioned error then.

VOTED: that the above-mentioned bids be taken under advisement.

8:15 P.M. Andrew J. Smith, Leonard Drive, appeared at this time seeking a Zoning Permit to erect a utility shed on his property at corner of Harris and Leonard Drives.

The Board then discussed with the Chief of Police and the Personnel Board the possibilities of classifying one of the regular police officers as a Sargeant in the Police Force. Police Chief Mattioli made it clear to all present that if such a step is possible, the man chosen to be Police Sargeant would be willing to go along until the end of the term, without an increase in pay.

Chief Mattioli also stated that "good thing to have a man in charge and be responsible to the Town--there may be some cases of 'judgement'". Selectman Banks is in favor of statement as made by the Chief of Police.

8:30 P.M. then appeared the Town Counsel, Alfred W. Howes.

Chief Mattioli explained his monthly work sheet to the Personnel Board, also he explained that the present two men (regular Police) are graduates of the State Police Academy, and both are Veterans, he said, that Patrolman Pietrasiak has four (4) more years' police experience than Patrolman Baker. Also brought out was the fact that seniority does not count in a municipality. Personnel Board in favor of Patrolman on duty over weekends should receive compensation, not in favor, at this time, of any one's being made a Sergeant. Board explained its favoring an examination being given, later for Sergeant. Police Chief Mattioli is also in favor of such.

Chief Mattioli then recommended to the Personnel Board that the Patrolman on duty weekends be given ten (\$10.00) for a 24-hour period from 12 o'clock midnight Saturday until 12 o'clock midnight Sunday for the man in charge, in the absence of the Police Chief, to be effective May 14, 1961--that the Officer chosen be acting for and in place of the Chief of Police.

VOTED: above-mentioned recommendation.

Mr. Phair of the Personnel Board asked Mr. Howes if there was anything mandatory relative to a person's being employed by the town who is over sixty-five, and comes under the Retirement System. "No by-law" stated the Town Counsel.

Letter as received from William G. and Margaret A. Salmon, Hillside Avenue, alleges that William G. Binder, Jr., also of Hillside Avenue, is in violation of the Zoning Laws, discussed.

Mr. Howes advised the Board to hold a hearing, unless said Board knows the facts, that it is the duty of the Selectmen to enforce the Zoning Laws, that they (Binders) "have no right to extend a non-conforming use", that two (2) facts must be determined: 1. when did he (Binder) start the non-conforming use, and 2. is he (Binder) now using the same use or has he increased it?

VOTED: that a hearing on the above be scheduled for May 22, 1961, at 8:00 P.M., and that both parties (Salmon and Binder) be so notified and to bring with them witnesses who are known to them who would be interested in this matter.

10:45 P.M. Then appeared Richard Driscoll, Moderator. Mr. Driscoll brought out the fact that presently, there are three members on the Advisory Committee from Southboro, since Dr. Meserve moved from the Southern part of the Town. Mr. Driscoll brought up the fact that Mr. Kehew is serving on both the Advisory Committee and the Board of Appeals and asked for an opinion of the Town Counsel. Mr. Howes told Mr. Driscoll "I don't think you can reappoint him" (meaning Mr. Kehew to the Board of Appeals). Mr. Driscoll stated that "that is my opinion, too."

11:00 P.M. Bills approved for payment--Treasury Warrant #20--Amount, \$8771.36.

Mr. Howes, Town Counsel, then reported to the Board that he had searched the records from 1909 through June 15, 1936 with reference to Nichols Street, and that he found nothing to indicate that abandonment of same. Mr. Howes did, however, cite those references made to said Nichols Street, Clemmons Street, and Pine Hill Road, in the years 1914, 1917, and 1923.

Application for Special License as a Hawker and Peddler as applied for by Antonio Rosso, Turnpike Road, again discussed. Town Counsel, Alfred W. Howes, informed the Board that "Board is not under responsibility to sign application of Rosso".

VOTED: not to sign said application of said Antonio Rosso.

S lectmen's Clerk reported that an application for a Zoning Permit is to be presented to the Board to build on the so-called Spring Meadow Lane on land now or formerly of Howard Norcross.

"Notice of Excavation of Street", as drawn up for the Water Department, by the Town Counsel, and received in this office tonight, discussed. Mr. Howes explained to the Board that the Town is responsible up to four (\$4000.00) thousand dollars if it can be proved that there was a 'defect' in the street and if said defect is caused by the Town. Mr. Howes further stated that if the Water Department is doing a job where the street has to be opened, it is the duty of the Highway Superintendent to inspect same. Mr. Howes stated he didn't think there was any authority that could make the Water Department put a road back in any particular way.

Mr. Pessini informed the Board that the Department of Public Works requires at least twelve (12) inches of gravel and two (2) inches of patch be replaced whenever roads have been dug up. Mr. Howes stated, however, that if the Water Department hired outside contractors to do any work, said Department would have to require said Contractors have inspectors (agents of the Town) to do the inspecting and pay said inspectors for such inspections, etc.

VOTED: that said "Notice of Excavation of Street" as drawn up for the Water Department by the Town Counsel, copies of which are to be given to both Superintendents of Water Department and Highway, be accepted, and that, between both afore-mentioned Superintendents, all excavations will be restored and approved by both afore-mentioned Superintendents.

Mr. Pessini reported that he had looked into the drainage condition in front of Mr. David Aldrich's, Main Street, also in front of home formerly owned by Mr. Herbert Cook, East Main Street. Mr. Pessini reported that he has to scarify Sears Road.

The Town Counsel discussed at length, the forthcoming meeting of May 22, 1961, stating the hearing was simply to "ascertain the Facts" whether or not Mr. Binder is in violation of the Zoning Laws, in a location which is strongly residential, that a decision will have to be arrived at only by "knowing the facts".

Chairman St. Maurice discussed with the Town Counsel, the request by the Board, of the former Civil Defense Director, of the transferring of certain equipment in his possession, such as pistols, ammunitions, etc., which he (Former Director) felt should not be turned over to new Director, until he has procured Pistols Permits, etc.

VOTED: to notify Civil Defense Director, Theodore J. Shimkus to obtain a Pistol Permit from the Chief of Police and then obtain Pistols, ammunition, etc., from former Civil Defense Director, Homer L. Bates.

Town Clerk, are directly under the jurisdiction of the Town Clerk and that whenever such records are asked for, persons asking for same will have to consult with the Town Clerk first. Mr. Howes told the Board that said records are under the jurisdiction of the Town Clerk.

VOTED: that the Town Clerk, Mrs. Eleonora F. Burke, be notified that the Selectmen have searched the records, as presently in the vault, from 1909 through 1936 so that said records will not be necessary to examine before that time, concerning said Nichols Street.

The partitioning off of a section of the stage in the Lower Town Hall, for the use of the Sealer of Weights and Measures, again discussed. The Board consulted the Town Counsel on its rights to purchase said partitions and certain office equipment. Mr. Howes stated he didn't think there is any question but what the Selectmen can buy this office equipment (desk, chairs, etc.)

Work to be done on Lover's Lane by the Highway Department and the payment of same, discussed. Town Counsel advised the Board that all monies received must first be placed in the Town Treasury, that the Highway Department submit a bill, contractor pay direct and Water Commissioners draw a Warrant.

Combination application and permit to Open, Use, Occupy and Obstruct a Way as approved some time ago by the Board of Selectmen, again discussed.

VOTED: that St. Mark's School be granted permission to hold a parade on May 24, 1961, provided said School is victorious over Groton.

Since it was reported that the New England Tel & Tel Company has already located pole or poles on Mitchell Street, it was

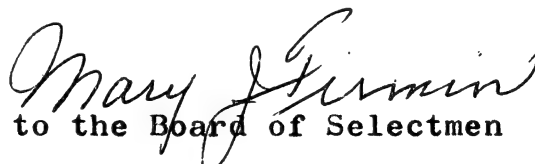

VOTED@ that Mr. Wallace of said Telephone Company be contacted about same.

Noted tonight was the written approval by the Inspector and the written report of completion by Francis J. Nemensky of the rewiring of the Southboro Town Hall.

11:20 P.M. Bills approved for payment--Treasury Warrant #21--Amount, \$43,601.96.

MINUTES OF MEETING, Special
BOARD OF SELECTMEN

May 22, 1961

Members assembled 8:00 P.M.

Present: Chairman, Arthur J. St. Maurice, Selectmen, Charles W. Sawin and Donald R. Banks, Town Counsel, Alfred W. Howes. Also present Mr. & Mrs. William G. Salmon and Mr. & Mrs. William G. Binder, of Hillside Avenue. Also present were residents of Lyman Street, East Main Street, Howes' Court, Walker Street, Private Way off East Main Street and Sears Road.

Mr. St. Maurice told all present that the Board agreed to have Mr. Alfred W. Howes be the presiding officer at this hearing for the purpose of "ascertaining the facts", in order to determine whether or not Mr. William G. Binder is in violation of the Zoning Laws, that all questions were to be directed to him (Howes). Mr. St. Maurice asked all persons acting as witnesses for Mr. Salmon or against Mr. Binder to take an oath "to tell the truth, the whole truth and nothing but the truth, so help them God".

8:05 P.M. Town Counsel, Alfred W. Howes, then took over this hearing, stating "in the true sense of the word, this is not a hearing, that it did not have any 'legal bearing'." He then read aloud to all present, the letter of complaint as received from Mr. & Mrs. William G. Salmon, dated May 6, 1961, alleging that Mr. William G. Binder is in violation of the Zoning Laws, as adopted on May 9, 1955, approved on June 6, 1955. It was believed at this time that the first hearing was held on February 9, 1955. The question was asked "when was the first call for the first hearing?" Mr. Cameron Bradley, who was then a member of the Planning Board, answered "I am sure it was after the first Town Meeting".

Mr. Howes stated there were two things to be determined, (1) Whether or not Mr. Binder is in violation of the Town's Zoning By-Laws. (2) What was being done on this property March 25, 1955. It was also brought out that Mr. Binder took possession of the land, April 26, 1955.

Mr. Howes asked the Binders, "before February 9, 1955, you made no use of the land at all?"

Mrs. Gladys Binder stated, "Oh yes, December 29, 1954, we had made arrangements with Mr. Taylor to use land and in turn talked with Mr. Salmon to use land until such time as we got papers through and survey made and and papers passed on property, that we had to get a place".

Mrs. Margaret Salmon stated, that the "land wasn't actually taken over until 1955".

Mr. Howes here explained that he was conducting this hearing because "I have had more experience in this thing".

Howes to Binder: "Does the trailer enter into this picture at all?"

Binder: "Other than the Fact that -----"

Howes to Binder: "You got anything from the Board of Appeals authorizing the trailer?"

Binder: "No".

Mr. Howes: Let's consider violations relative to conducting of a business. You can't conduct a business unless it is a non-conforming use.

Mr. St. Maurice: "I would like to ask Mr. Binder, did he own the property before June 6, 1955?"

Binder: "Yes".

Mr. St. Maurice: "I understand the Zoning Laws became effective June 6, 1955".

Howes: "That's not so, became effective first hearing March 25, 1955".

Mr. St. Maurice: "As of March 25, 1955, or in the first of it, what was the conduct of this business as known as the William G. Binder property?"

Binder: "Real Estate".

Mr. St. Maurice: "Same time, March 25, 1955, what was the conduct of your business?"

Binder: "The same thing-----we have always conducted since 1950".

Mr. St. Maurice: "Did you own three trucks--were they used to do excavation work?"

Binder: "The same thing".

Storing of trucks at this time-----

The taking of title to the property then discussed.

Mrs. Salmon: "Took title April 26, 1955".

Howes: "After you opened stonewall, when did you go into occupy premises?"
"When did you first make any use of that land?"

Binder: "December 29, 1954". "Kept the trucks, 2 tractors, bulldozer --pump truck, 2 dump trucks".

Mr. Salmon did not agree to the above statement made by Mr. Binder.

Binder: "To the best of my knowledge, that is what was moved in 1954".

Mr. Howes questioned Mr. Binder relative to some lumber which has been on his property. Mr. Binder stated that he had torn down a building, in January, 1955.

Howes: "What else if anything, or did you make any other use of this property except to store equipment between December 29, 1954, March 25, 1955?"

Binder: "General run of construction equipment, concrete-----

Mr. Salmon: "You had not stone in there?"

Binder: "We had some tools, general equipment for the operation of our business".

Howes: "Since March 25, 1955, what, in addition to this have you done?"
"Have machinery equipment or operation of any kind?"

Binder: "You kind of leave me there Al".

Howes to Binder: "Do you now claim that between December 29, when you first moved in 1954 and March 25, 1955 that you used this property for the general conduct of your business having two dump trucks, a pump truck, two tractors, low bed trailer, stone, general gear and a dodge truck?"

Binder: "Yes".

Howes: "That was the only use of this property?"

Binder: "other than past operations". "There's a Sampson backhoe that was there too".

Howes: "That's your store up to March 25, 1955?"

(Here both Mrs. Chenard and Mr. Salmon interrupted before Mr. Binder could answer).

May 22, 1961

Mr. Salmon: "If I remember correctly, backhoe, truck, and septic tank, I don't remember the lumber, much other lumber has been brought in".
"Backhoe on truck, septic tank--I don't remember all equipment he claims he had".

Howes: "Did you say he didn't have two dump trucks?"

Mr. Salmon: "I don't remember".

Mr. Howes again stressed the fact that this hearing was for the purpose of "ascertaining the facts", and asked all present if there was anything anyone wished to say, bearing upon this matter.

Mrs. Salmon: "He (meaning Binder) was trespassing on our property".

Selectman Sawin: "Trespassing with your permission?"

Mrs. Salmon: "No".

Mr. Salmon again referred to the lumber, that he didn't "remember when it was moved in--that it was during the winter time". Mr. Salmon also stated that he "didn't remember the low bed trailer".

Howes to Salmon: "Do you remember any dump trucks?"

Mr. Salmon: "I don't say I remember-----"(Mr. Salmon was interrupted here). He (Salmon) then stated, "backhoe, dump truck, pick-up truck". Mrs. Salmon interrupted here and stated that she didn't remember all that equipment.

Mrs. Salmon: "Lumber and tanks (trucks) came in in the last few years". Mrs. Salmon stated that she didn't remember "seeing anything like that" (she was referring to the low bed trailer as someone mentioned same). Mr. Salmon also stated he didn't remember seeing the low bed trailer.

Mrs. Chenard, East Main Street, stated that she had the excise taxes on his (Binder's) equipment since 1956, that she got same from Board of Assessors.

Howes: "All equipment that you has was there?"

Binder: "It was base of operation".

Mrs. Chenard to Binder: "Do you keep all your trucks registered like on tractors, bulldozers?"

Binder: "no not all of them".

Mrs. Chenard: "In 1956 he had Studebaker, dump trucks, tank truck, packard, Gledhill Machine, heavy duty

Howes to Binder: "When did you build the house?"

Binder: "In the summer of 1955".

Mr. Salmon: "Where did the lumber come from?"

Mrs. Chenard: "In 1956 you just had land title.

Mr. St. Maurice to Salmon: "Did you lease land before April 9, 1955?"

Howes: "It doesn't enter into it".

Selectman Banks: "Is there any abutters--do they actually feel it is detrimental to the neighborhood?"

Howes: "It doesn't make a particle of difference".

Here Mr. Howes stated that if Mr. Binder is in violation of the Zoning Laws the Selectmen have no alternative but to stop him. Mr. Howes stated he knew something about this matter and asked permission of both parties, Salmon and Binder, to speak on same. Permission granted by both said parties. Mr. Howes brought our that Mr. Salmon sold a right-of-way of 20' to Mr. Binder,

that Mr. Binder was permitted to put some equipment in on this land, that he was going to build a garage, but found he had to build a house. Mr. Salmon stated here, that where they intended to build the house they now have trucks, tractor, etc. Mr. Howes explained that Mr. Binder found that he had to leave premises on Main Street immediately, and had to have living quarters.

Mr. Salmon contended that Mr. Binder has more equipment now than when he first started, that he found "as much as eleven(11) pieces of equipment".

Mrs. Salmon: "He (Binder) didn't have all those trucks as of two (2) weeks ago--I counted twelve (12) trucks".

Mr. Howes stated that what the Board is trying to determine is "if he (Binder) had a non-conforming use, that he (Binder) can continue to conduct his business but that he (Binder) cannot extend the business and that the Selectmen must know the extent of the business which was conducted there.

Mrs. Salmon: "Isn't somebody else running a business there?"

Howes to Mrs. Salmon: "Will you say he (Binder) didn't have two dump trucks?"

Mrs. Salmon: "As of May 8, I counted eight (8) pieces of equipment which he (Binder) didn't have before".

Howes: "We are trying to determine the use of what he (Binder) has got now".

Mrs. Salmon: "He (Binder) didn't have eight (8) pieces of equipment". (Mrs. Chenard questioned here how could Mr. Binder have the eight pieces of equipment--she claimed Mr. Binder didn't have this extra equipment in 1955).

Selectman Sawin to Binder: "You didn't ever register the bulldozer?"

Binder: "You never register bulldozers". (Mr. Howes told all present that as far as registration of equipment is concerned records are available to determine same).

Howes to Binder: "What equipment have you got now?"

Binder: "Approximately the same--I think we have one other truck--I think one thing you haven't got down there, we have a 1955 Chevrolet pick-up".

Mrs. Chenard: "He (Binder) didn't mention any pick-up truck".

Howes to Binder: "What have you got there?"

Binder: "I think we have three (3) dump trucks, backhoe, tractor, 'dozer', low bed trailer, two pick-up and the car, 9 pieces of equipment".

Mr. Salmon: "Where does all the other trucks come from?" Mr. Binder explained that "when there is work in this Area" trucks are hired "to finish the job".

Howes to Binder: "What about lumber, stone, concrete covers?"

Binder: "The same stuff".

Mrs. Salmon: "What about old tanks, tins, old water truck piled up--trucks which wasn't used--in other words its a junk yard".

Howes to Binder: "Is your business the same or any different?"

Binder: "About the same--we conduct the same which has been there".

Mrs. Salmon: "They conduct a business from this place, the place they

May 22, 1961

are conducting from, Mr. O'Malley's former property".

Mr. Salmon: "There is an office there".

Binder: "I have a desk an telephone--our business is all done at someone else's home, the only thing we receive think we receive 'phone calls at our property--actually little or no equipment there running or operated there".

(Mrs. Salmon contends that some of the equipment, above-mentioned is being parked on former property owned by O'Malley and presently owned by Binder).

Mrs. Salmon: "We will say he is conducting a business from O'Malley's property".

Mr. Salmon: "Salesmen come up there". (Binders)

Mrs. Salmon: "We were not notified about this."

Howes to Binder: "Do you agree that it is the list of equipment?"

Mr. Salmon: "As of now, he (Binder) has eleven or twelve pieces of equipment".

Mrs. Salmon: "He (Binder) has at least 10 pieces (that he owns and uses).

Mrs. Salmon questioned Mr. Truesdale's car being there.

Mrs. Salmon asked Mr. Howes that once a business is stopped or abandoned can it be started again. Mr. Howes told Mrs. Salmon it couldn't.

Howes: "Do you make any claim that the type of business which is conducted there now is any different than when you (Binder) conducted it in 1955?"

(If there was an answer to this question Clerk did not hear it).

According to Mrs. Salmon, the property of Binder "is like a junk yard--old boards, old iron tanks and crushed stone".

Howes to Binder: "What do you say to that?"

Binder: "I'll say when we bought the land somebody used it for a dump--it was a swamp--I hauled yards of fill, there was old bed steads, all types of junk, we, in turn, cleaned it out--that was condition when I acquired it. At the time I acquired the land, everybody was aware what I wanted it for--to conduct my business and store my equipment--all stuff is used in our business each day".

Mrs. Salmon: "There were no bed steads there".

Mrs. Binder: "Yes there was--we hauled them to the dump".

Mrs. Salmon to Howes: "There was no dump there then--no bed steads there then".

Howes: "If he (Binder) has increased the business, changed it materially for practical purposes or is conducting the business in a different manner, if he (Binder) is, he is in violation".

Mr. Salmon: "I would say he (Binder) is".

Mrs. Salmon: "He is conducting in a different manner from what he had conducted when he went in there".

Here Mr. Howes brought out that if Mr. Binder used more efficient equipment than he (Binder) originally had, but not more pieces of equipment, then he (Binder) is not in violation. Mr. Howes brought out, however, moving lumber was in violation.

Mrs. Salmon: "That's what he has done".

Mr. Salmon to Binder: "When did you say you brought that lumber in?"

Mrs. Salmon: "He was building a house--why is that lumber there now?" According to what he (Binder) says there is not a lot--what about stuff you carried out the other day?"

Mr. Salmon to Binder: "Didn't you take some Lumber?"

Mr. Binder did not answer.

Tar paper shack questioned-----

Howes to Binder: "Has there something been built since March 25, 1955?" "Something separate and apart from the dwelling house?"

Mrs. Salmon: "Yes".

Mr. Salmon to Binder: "You got to have permission if you moved out--to be turned back into the garage. (Mr. Salmon here referred to building as was being used by Mr. Binder to live in).

Mrs. Salmon: "This was not done ? paper shack 1957.

(Here Mr. Herbert Cook, who was present, stated that Mr. Binder was going to build, he believed, something to house his equipment, that he believed this to be prior to the Zoning Laws).

Mrs. Salmon: "That building was built after-----house garage was built".

Brought out was the fact that in 1956-1957 Mr. Binder had two (2) sheds, unfinished house.

Mr. St. Maurice to Binder: "Did you present this to the Board of Selectmen for approval?"

Binder: "I think in the summer or early spring". "I think it was shortly after I passed papers".

Mr. St. Maurice: "Was there, before April 9, 1955, new buildings on the property?"

Binder: "There was the shed".

Mr. Salmon: "I don't remember of any building".

(Mrs. Salmon asked about conducting business in another building).

Mr. Salmon: "What about letting the property to another person who stored his truck and machinery there?"

Binder: "Actually I don't know too much about that, he kept his business and conducted his business on Middle Road". (Mr. Binder explained here that he had given permission to the party in question to leave his truck on the property but that he drove same up to Middle Road).

Howes to Binder: "Does he (party in question) conduct any business there?" (meaning on the Binder property)

Binder: "No".

Mr. Salmon: "He (party in question) is living there".

Mrs. Salmon: "He (party in question) is living on the property, he is doing business there in addition to the pieces of equipment that is down there".

Howes: "the only effect -----

Mrs. Salmon interrupted and wanted to know if he (Binder) is conducting a business there (former Salmon property), conducting a business from "one business and now another business, is Mr. Truesdale from that business?" "If he (Binder) is conducting a business what about conducting a business in O'Malley's house, he (Binder) is maintaining a desk".

May 22, 1961

(Mr. Binder recently purchased the O'Malley property).

Number of men employed by Mr. Binder discussed. Mr. Binder explained in the Winter of 1954, he employed three (3) men. Mr. Binder explained that in the Summer of 1960, he employed four (4) men.

Howes to Binder: "You employed more men in the summer than you did in 1954?"

Binder: "In any given year, there are times when you are digesting more work for a period of time we have contractors move some equipment for us".

Howes to Binder: "Only thing we are concerned about was the amount of business in 1960 as compared to 1955, before March".

Binder: "1955 employed four (4) men, 1950-60 I had four (4) men, 1960-61, we had three (3) men".

Mr. Salmon: "I won't dispute that--I dispute the amount of equipment he had".

Howes: "As far as I can see, unless there is a question of the number of men employed".

Mrs. Salmon: "Very much increased".

Mr. Salmon: "He (Binder) can do pretty well when he can run twelve (12) pieces of equipment".

(Here Mr. Howes asked all present if there was anything else which would help the Selectmen to make a decision(.

Mrs. Salmon: "He isn't using the place-----

when you sell property you expect them to build a house--they use it for a junk yard, leaving their trucks".

Mr. Salmon: "There was an agreement before he (Binder) took the property".

Mrs. Salmon: "He (Binder) was supposed to build a house get equipment under cover--so-called house-garage".

Howes: "That has nothing to do with violation".

Howes: "Is there any more information which might assist the Selectmen relative to the business December 9, 1954-March 25, 1955 or as to anything which -----increase in the business".

Mrs. Chenard: "Snow plowing business".

Howes to Binder: "When did you conduct the snow plowing business?"
(Clerk did not hear Mr. Binder's answer).

Mr. Binder stated that roughly his business is about the same now as it was in 1957, that "for example, backhoe equipment--traded one (1) dump truck for another, old equipment has been replaced--substantial increase in the business".

Mrs. Chenard: "Has there been any complaints why Mr. Binder can't use Lyman Street?"

Binder: "Not to my knowledge".

Mr. St. Maurice here questioned Mr. Binder about his trailer being on the property and being used as living quarters.

Mr. Howes asked Mr. Binder if he got permission to place this trailer on the property and did it consider said trailer as being there illegally?"

Mr. Binder: "I admit it is illegal".

Storage of gasoline pumps since 1955 discussed.

Selectman Banks to Binder: "Is this underground?"

Binder: "Underground - 300".

Mr. Salmon then asked Mr. Binder if he could conduct a business where there is lumber which has not been piled up orderly, as same detracts from the neighborhood. Mr. Binder did not answer. Mrs. Salmon stated that he (Binder) "has definitely expanded". Mr. Howes told all present that "Town would have to look at record". It was brought out that the trucks were being "warmed up" at 6:30A.M., people being awakened". Mr. Banks stated that he did not know what the property (Binder) looked like back in 1954".

Mrs. Salmon answered: "It was woods".

Howes: "That is what has got to be determined".

Mrs. Salmon to Mr. John Hill (who was present) "Mr. Hill, you know how it looked".

Mr. Hill: "It was all woods".

Mrs. Chenard: "Can't we talk about our own property?"-----

Howes: "The reason is to prevent things. You can't take away something thar somebody else has got".

Mrs. Chenard: "He (Binder) have an established business".

Howes: "If he (Binder) didn't have the right, he is going to be deprived of the right to-----"

Mr. Salmon: "Can we have an admission to this in writing?"

Mrs. Salmon: "What about that trailer, fuel pump-against the law?"

Binder: "I admit trailer and gas pump is in violation".

Hearing declared over at 9:50 P.M.
